

# The Bonville ACADEMY OF GOLF

*Craig Chandler*  
*Head Teaching Professional*

Over the past 17 years that I have been a Golf Professional. I have seen players with faultless swings, superb physical attributes and excellent mind control. But rarely have I seen a player with all three combined, and this is why almost every week, you see a different winner. It is my goal to achieve this skill set for the players that I work with.

I started my Professional career as a Trainee at Muree Golf Club, Raymond Terrace. After graduating I worked at NSW and Dubbo Golf Club for 12 months each before receiving my first position as Head Professional at Tallwoods Village where I spent the next 4 years. I then spent the next 4 years at Bonville Golf Resort as Head Professional before going out to explore the world teaching. I have been coaching in New Zealand, Asia, America and Japan. Finally I came back to Australia where I was Teaching at Brookwater near Brisbane, and after gaining so much experience I felt it was time to settle down and start my own Academy.

In my time as a PGA Member, I have been fortunate to study coaches all over the world. They include Ian Triggs, Mark Gibson, Gary Edwin, Steven Bann, Peter Cowen, Stan Utley on the Short Game and many more. I also spent six months on the Japan Ladies Golf Tour as a Coach and Caddie.

So it is with great pleasure that I introduce the **Bonville Academy of Golf**. The Academy will benefit both Members and Guests, and with our Future Golfers Junior Program opening in 2009, we are looking to build on our Club Membership, also Australia's top amateurs and future Professionals.

My simple and easy to understand approach to coaching has become even easier with the inclusion of Kvest. A 3D Wireless Computer Swing Analysis Program that produces visual, audio and biomechanical feedback. The Program was developed in America by Bentley Kinetics. Using this wireless 3D technology, helps beginners to tour players monitor swing improvements to within 1 deg. I am also now certified in golf fitness which allows me to view any physical limitations that might be inhibiting your swing, and if so I can recommend a fitness instructor or demonstrate some exercises to increase your flexibility, or modify swing improvements.

**TPI 3D EDITION** Wireless 3D technology to accelerate golf instruction.

So why not try the latest technology in golf swing analysis.

**"Game Of Life Forever"**
